

MAGIC

Volker Bauch/Volker Bauch

*Looking back to my hardest times
I felt so down and I realized
Many things I have done
I did for otherones*

*I see the girl who was at my side
She is gone left the years behind
What a fool must I am
Not able to understand*

*But since the day you have been stepped into my life
Everything has changed, I wonder why*

*In a world of a million lights
You are my star that shines so bright
This is magic, really magic
I wanna tell you very honesty
You lift me up and it makes me feel
Just like magic, really magic*

*When we began I don't wanna see
What your is ment to be
But you show me the way
To reality*

*I close my eyes and I think of you
The love we have is making dreams come true
And I'll do what I can
To be your guardian hand*

*And since the day you have been stepped into my life
Everything has changed, I wonder why*

*In a world of a million lights
You are my star that shines so bright
This is magic, really magic
I wanna tell you very honesty
You lift me up and it makes me feel
Just like magic, really magic*

*I always get romantic
By the look in your eyes
I never will forget this prescius love
In a world of a million lights
You are my star that shines so bright
This is magic, really magic
I wanna tell you very honesty
You lift me up and it makes me feel
Just like magic, really magic*

*In a world of a million lights
You are my star that shines so bright
This is magic, really magic
I wanna tell you very honesty
You lift me up and it makes me feel
Just like magic, really magic*
